Volume 40 1998

Index

Authors and subjects of articles in the body of the journal are indexed together. Co-authors of all articles are cross-referenced to the first author. Book reviews and abstracts are listed separately. A, annotation; E, editorial; L, letter.

Key to issues and pages

Issue	*Pages*	*Issue*	*Pages*	*Issue*	*Pages*
No. 1	1–72	No. 5	289–360	No. 9	577–648
No. 2	73–144	No. 6	361–432	No. 10	649–720
No. 3	145–216	No. 7	433–504	No. 11	721–792
No. 4	217–288	No. 8	505–576	No. 12	793–864

A

A patient with autistic disorder and a 20/22 chromosomal translocation, 492
see also, 785 (L)

Abstracts

AACPDM abstracts of the audio-visual program, 644
HART HM
Regression in pervasive developmental disorders: seizures and epileptiform electroencephalogram correlates, 72
Perinatally acquired brachial plexus palsy – a persisting challenge, 72
Cognitive functioning in adults with Williams syndrome, 574
Ultrasonographic diagnosis of trisomy 18: is it practical in the early second trimester?, 574

Academic achievement in children with epilepsy or asthma, 248

Acquired brachial-plexus neuropathy in the neonate: a rare presentation of late-onset group-B streptococcal osteomyelitis, 496

Acquired spinal cord lesion associated with os odontoideum causing deterioration in dystonic cerebral palsy: case report and review of the literature, 195

ACTH, a key to understanding anticonvulsant action?, 82

Acute necrotizing encephalopathy of childhood (infantile bilateral thalamic necrosis): two non-Japanese cases, 771

Acute transverse myelitis in childhood: nine cases and review of the literature, 631

Aetiological factors and prevalence of severe mental retardation in children in a swedish municipality: the possible role of consanguinity, 608

AGATHONIKOU A *see* PARKER APJ

Agraphia, without, Evolution of a form of pure alexia, in a child sustaining occipital lobe infarction at 2½ years, 417

AHONEN T *see* LUOMA L

ALBERMAN E *see* WILLIAMS K

Alberta Infant Motor Scale, predictive validity of: Assessment of gross motor skills of at-risk infants, 485

ALEMAN S *see* VAN DEN HOUT BM

Alexia, pure, without agraphia, Evolution of a form of, in a child sustaining occipital lobe infarction at 2½ years, 417

ALLUM J *see* BROUWER B
